L'DORA VITAMIN CLEANSING MILK

The first step in the care routine is to clean the skin. The surface of the skin and its pores are constantly covered with dead cells, environmental pollutants and cosmetics. Therefore, cleansers play an important role in removing keratin layers, cleaning pores, and as a result, maintaining health and improving skin quality. On the other hand, continuous use of detergents and cleansers incompatible with skin type can cause serious skin damage.

Cleansing milk is a light cleanser that has a gentler action to clean the skin. This product can be used twice a day, morning and night.

CARE

L'DORA VITAMIN CLEANSING MILK

L'DORA Vitamin Cleanser is a suitable cleanser for facial skin. The unique and effective ingredients in L'DORA Vitamin Cleanser easily remove waterproof make-up and dirt from the skin. In addition to its high cleaning power, this product also has an anti-inflammatory and soothing effect. Sesame extract used in L'DORA vitamin cleansing milk is a rich source of vitamins D, E, F1, B and amino acids omega 3, 6 and 9. This extract, having antioxidant and anti-inflammatory properties, in addition to protecting the skin against free radicals, prevents inflammation and skin sensitivities. Allantoin in this product is a herbal compound used as an anti-inflammatory agent to improve and prevent dryness, roughness, scaling and skin irritations. This effective substance softens and moisturizes the skin and helps to reduce skin sensitivities in addition to skin regeneration. Hydrogenated castor oil is another effective ingredient in this cleansing milk that moisturizes and refreshes the skin. This oil is an excellent source of vitamin E and an effective and anti-free radical agent that softens, reduces the effects of aging and revitalizes the skin.
