L'DORA HERBAL SPIRULINA

Hydrogel Powder Mask
Containing Kaolin

Face masks are a great way to take care of skin complications and speed up the healing process. Depending on their type and function, face masks are classified into different types. Hydrogel powder masks are one of these categories. Hydrogel powder masks are based on alginate, which is a natural substance extracted from seaweed. Hydrogel masks have a gel-like texture, which provides deep hydration to the skin while cooling it with each use. By creating a smooth and uniform covering over the entire skin, these masks can direct the nutritious and hydrating compounds to the lower layers of the skin under a vacuum-like condition.
